2. Discuss allocation of storage.

Action Items

1. Faris is assigned to complete full storage and packed storage.

2. Azure is assigned to complete full storage and CSR storage.

3. Jean-Luc is assigned to complete band storage and visualisation.

Other Notes

3   Meeting Minutes

Location: GP- S502
Date: 9th September, 2019
Time: 12:00pm - 2:00pm

In Attendance

- Azure Hutchings

- Jean-Luc Danoy

- Faris Saad S Alsubaie

Apologies

No apologies.

Agenda Items

1. Discuss the errors with A and b matrix and how to approach correctly solving it.

2. Review groups progress with the storage that was allocated in the last meeting.

3. Discuss the report and how to approach writing it.

4. Discuss the structure of the MATLAB live script.

Action Items

1. Faris and Jean-Luc are assigned to write the Numerical Approach in the report.

2. Azure is assigned to write the Introduction in the report.

3. Faris is assigned to move the Full Storage to a mat file and call it in the live script, instead of having it all contained in the live script.

4. The live script is decided to be cleaned up, and all the storage code are to be moved into individual .m files that are to be called in the live script to clean up the live script.

Other Notes

4   Meeting Minutes

Location: GP- S502
Date: 17th September, 2019
Time: 3:30pm - 5:00pm

In Attendance

- Azure Hutchings
